The bar chart below shows Philippines’s total risk scores in 4 domains: (1) Business Interactions with Government, (2) Anti-Bribery Laws and Enforcement, (3) Government and Civil Service Transparency and (4) Capacity for Civil Society Oversight. The four domain scores are weighted and combined and a risk penalty is added for individual domain scores that exceed the overall country risk score. Each country is given a score from 1 to 100 for each domain, and for the total bribery risk. A higher score indicates a higher risk of business bribery.
